Bought new in Boston and leased to Bekens Van Lines. Then Griffins in Effingham, IL bought it and keep it leased to Bekens until parked in their Peterbilt show room. Then bought by a guy in Nebraska who ran it a couple of years and then parked it in the weeds for 3 years until we found it and put it back on the road. My truck is the one closest in the pic from many years ago. It was repainted back in the early 80's.
